Request The Best!

- *No Maintenance 3yrs/300 hrs*
- *No Break-in*
- *No Oil Change - Ever!*
- *More Power & Torque*
- *Low Fuel & Oil Usage*
- *Cleaner*

2 > 4

For years, there's been this noise about four-strokes being better than two-strokes. Cleaner, more reliable, more efficient, they say. Even faster, if you can believe that. Well, let's set the record straight. And the math. There's a two-stroke out there that's better than any four-stroke in every comparison that matters. Speed. Fuel economy. Reliability. Weight. Even emissions. The Evinrude E-TEC. It's time to learn some new math. It's time to see how two is greater than four. It's time you got it.
